

ENVIRONMENTAL POLICY STATEMENT

Acorn Glass and Glazing is the glazing division of *The Acorn Group*. It is a Supplier and Installer only of PVCu doors & windows as well as glass products in single sheet and double glazed form and the sourcing of processed glass products in other forms, for example toughened, on behalf of its customers within the United Kingdom. It is also responsible of the sourcing and installation of products relating to the property maintenance work it undertakes as part of its customer services, in order to fulfil its contractual obligations to those customers. *The Acorn Group* also has specific responsibilities for the Marketing, Sales and Technical Support for all the products it supplies and installs.

The Acorn Group is committed to a policy of providing and maintaining the most effective environmental control procedures necessary to:

- a) Meet all applicable legal requirements and to achieve best practicable performance by identifying and monitoring the environmental effects of its activities.
- b) Set objectives and targets and conduct reviews with a view to continually improving its environmental performance by preventing or reducing harmful environmental effects, especially with regard to the following:
 - Discharges of all water, including wastewater.
 - Hazardous material reduction and elimination, where practicable, and the safe handling, storage, transportation and disposal of such materials.
 - Minimise solid waste by the use of recycling and recovery programmes wherever possible.
 - The conservation of energy (fossil fuel and electrical) by management control techniques.
 - Control activities that will positively contribute to the reduction of its carbon footprint.
 - Educate, train and motive staff members to conduct their activities in an environmentally responsible manner.
 - Ensure that suppliers, contractors and sub-contractors understand and comply with the stated environmental practices.

Signed

Stephen F. Allen
General Manager
