

The Acorn Group

# 10 year Guarantee

This is to certify that any new PVC window/s and door/s we fit together with any double/triple glazed units glazed therein and detailed on our invoice, are guaranteed for a period of TEN years from the date of such installation against any faulty workmanship or unit failure, and will be replaced FREE OF CHARGE during that period should such a fault occur. The original invoice will need to be produced to support any claim.

Should any PVC products, including hinges, mechanisms, handles and locks as well as the double/triple glazed units subsequently be found to have been vandalised or tampered with by any unauthorised person, then this guarantee shall become null and void.

This guarantee may be passed to new occupiers/owners of the installation address, and the original invoice will still need to be produced to support any claim.
